2. Talked with Miss Herreld in Representative John Taber's office (R., N.Y.) about the [redacted] case. She indicated that Mr. Taber had discussed with [redacted] the fact that CIA perhaps could not match his salary or come close to it but that [redacted] wished to see the DCI and Mr. Taber hoped we could keep the existing appointment. I assured Miss Herreld that we merely wished to make sure of our facts and the Director would be delighted to see [redacted]

3. Talked with Den Kerlin on the staff of the <sup>and</sup> Senate Post Office Civil Service Committee concerning our interest in S. 94. He was advised that we were primarily interested in assuring that language was retained in the bill which would permit the Civil Service Commission to provide the Agency with exceptions to the general rules governing the administration of the health insurance program.
